OUR HISTORY

The predecessor of our company was founded in 1991 as a family business. We are operating in the recent enterprise form since 1999. In the beginning we have produced solely school furniture, basically school desks and chairs. As our company has enhanced our product range has also increased. First our school furniture product range has flared with new types and later we have started new product lines like restaurant and catering furniture, locker room furniture and street furniture. Currently we are the biggest school furniture manufacturer in Hungary and our other business lines are also significant in their own fields.

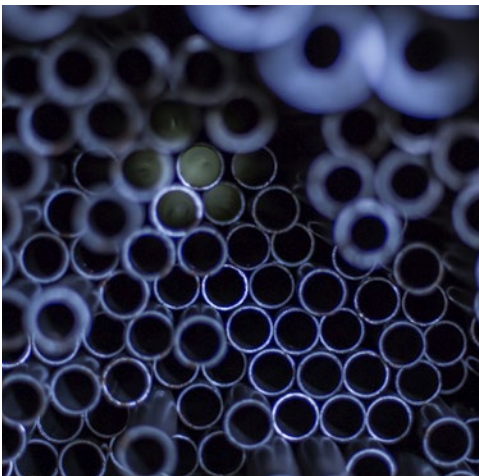

At the moment we have cca. 150 employees – most of them are working in the production. Our manufacturing capacity includes metalworking, welding, powder coating (epoxy painting), carpentry works, upholstery works and assembling works. We are constantly upgrading our

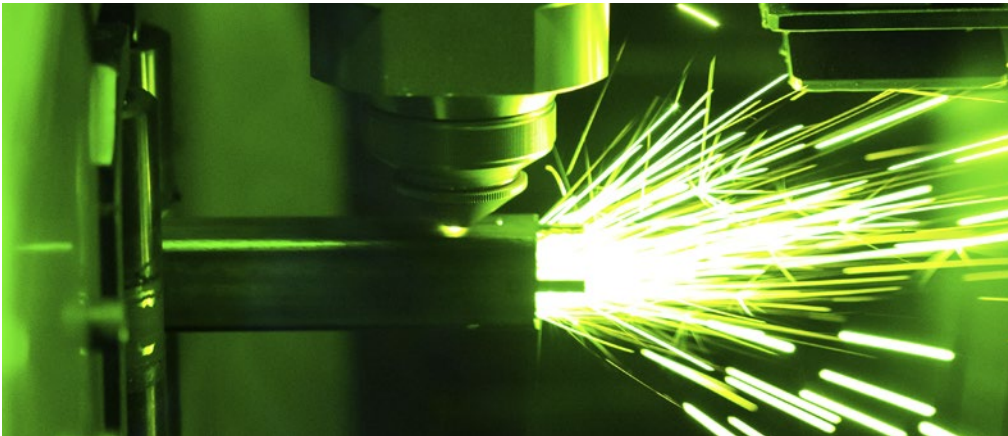

machinery and right now we have quite modern producing devices like fiber laser cutting/ bending machine, CNC bending machines, welding robots, CNC machining-centers, etc.

In the last 5-7 years our export sales has also started to increase. We have long term partnerships with distributors and manufacturers in Netherlands, Germany, Belgium and all around in eastern-europe. Our export activity focuses on school furniture products since this is our biggest and strongest business line.

In this catalogue you can find a short selection of our school furnishing projects from the past few years in order to get a general picture about our products and our way of thinking about furnishing a school.

We hope we can attract your interest, and please feel free to contact with us!

Debreceni Nemzetközi Iskola

INTERNATIONAL SCHOOL OF DEBRECEN

ISD is the newest international school in Hungary. The school has a brand new, very attractive and modern building which even already won some architectural awards. We are really proud that the investor has chosen our school furniture products for this unique building.

The main concept of furnishing the classrooms was the high variability and flexibility. We have also manufactured and delivered the furniture of the canteen, locker rooms and library.
